Snap takes the data privacy of our merchants and customers very seriously. We are committed to keeping your personal information secure, and we apologize to you for any concern and frustration this incident may cause.

What Happened? Earlier this year, Snap discovered suspicious activity in its environment. Upon learning this, Snap immediately launched an investigation to determine the nature and scope of the activity. The investigation, which was conducted with the assistance of third-party forensic specialists, determined that there was unauthorized access to our environment between June 23, 2022 and September 8, 2022. The investigation also determined that an unauthorized actor had the ability to access certain information stored on the network during this period of time. Therefore, Snap undertook a comprehensive review of the data at risk to assess if any sensitive information could be affected and to whom it related. On October 28, 2022, Snap completed this review and determined the data contained certain information related to you.

What Information Was Involved? Snap determined the type of information potentially impacted by this incident includes your: name, Social Security number, driver's license number or state identification number, and financial account number.

Upon discovery of the incident, we immediately commenced an investigation and took steps to implement additional safeguards and reviewed our policies and procedures relating to data privacy and security.

Single Bureau Credit Monitoring

You will receive alerts when there are changes to your credit data—for instance, when a new line of credit is applied for in your name. If you do not recognize the activity, you'll have the option to call a Kroll fraud specialist, who will be able to help you determine if it is an indicator of identity theft.

Fraud Consultation

You have unlimited access to consultation with a Kroll fraud specialist. Support includes showing you the most effective ways to protect your identity, explaining your rights and protections under the law, assistance with fraud alerts, and interpreting how personal information is accessed and used, including investigating suspicious activity that could be tied to an identity theft event.

Identity Theft Restoration

If you become a victim of identity theft, an experienced Kroll licensed investigator will work on your behalf to resolve related issues. You will have access to a dedicated investigator who understands your issues and can do most of the work for you. Your investigator will be able to dig deep to uncover the scope of the identity theft, and then work to resolve it.

Kroll's activation website is only compatible with the current version or one version earlier of Chrome, Firefox, Safari and Edge.

To receive credit services, you must be over the age of 18 and have established credit in the U.S., have a Social Security number in your name, and have a U.S. residential address associated with your credit file.

Monitor Your Accounts

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also directly contact the three major credit reporting bureaus listed below to request a free copy of your credit report.

Consumers have the right to place an initial or extended "fraud alert" on a credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer's credit file. Upon seeing a fraud alert display on a consumer's credit file, a business is required to take steps to verify the consumer's identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any one of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a "credit freeze" on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer's express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a credit freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request

or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a credit freeze on your credit report. To request a security freeze, you will need to provide the following information:

1. Full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. Addresses for the prior two to five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver's license or ID card, etc.); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if you are a victim of identity theft.

Should you wish to place a credit freeze, please contact the three major credit reporting bureaus listed below:
