The online Consumer Complaint Filing System recognized for increasing efficiencies and productivity

“SCDCA and SC.Gov staff did a phenomenal job in the creation of this cutting-edge Complaint System that is exceeding all expectations of increasing efficiency and productivity,” said Carri Grube Lybarker, SCDCA Administrator.

The Online Consumer Complaint Filing System was launched to the public in January 2014 and 60 percent of consumer complaints are now submitted through the online system instead of the
manual paper process from the past. Online submissions are resolved 50 percent faster and have significantly reduced the agency’s copier, office supply, and postage expenses.

After creating a Complaint System account, consumers can submit, and businesses can respond to complaints electronically. The Consumer Complaint System also functions as a public information tool, allowing consumers, media and other interested parties to search complaints on businesses of interest.

SCDCA’s online Complaint System offers quick and easy submission, tracking, and searching from desktop, laptop or mobile device. Users can:

- Expedite the complaint process through online submissions
- Submit comments to assigned SCDCA complaint analysts
- Monitor the status of a complaint with 24/7 system access
- Research complaints
